HOW TO USE TONDA

TONDA - INSET LED LIGHT

- To be used combined with the BOXLED control unit with firmware version 1.4 or following (**NOT COMPATIBLE WITH 14A**)
- Dedicated programming on BOXLED output (see instructions 580BOXLED)
- Light intensity not adjustable (always 100%)
- Check carefully that you have correctly calculated the total number of lights to be connected to the control unit (see instructions 580BOXLED)
